

Key System Basics

Amphion's Keying Products Include:

- SFIC Standard or Client Specific (Mastered or Grand Mastered)
- New Construction, Retrofit and Conversion
- Database Management/Control
- Authorized National Dealer in Supply, Installation and Support of:
 - o InstaKey & U-Change
- Services include supply, installation, service and support

Keying systems should come with an expiration date because continuing to use them when they're obsolete can be dangerous to the health and well-being of your business.

To keep keys and locks up-to-date, we recommend you:

- Select a new keying system based on specific needs such as area volume, number of doors and other points that need to be secured, the number of employees requiring key access, and whether or not you will use a master key system.
- Utilize a patented keying system that limits the ability to make unauthorized copies.
- Restrict key access and track all issued keys. Consider an online tracking system to enable real-time updates of key losses, as well as gain instant knowledge of everyone who has key access.
- Stay consistent and enforce all key policies and procedures, including defined processes for what to do when a key is lost, retrieval of keys from former employees, and who is authorized to copy keys or change/service locks.
- Deploy a re-keyable solution to keep pace with turnover or the loss/theft of a key. A re-keyable lock can prevent the need for locksmiths and extensive hardware every time an issue arises.

We Are Amphion

A security Integrator with a Radical Approach to Service

What this means to you:

- We understand the causes—and the solutions—of restaurant and retail shrink.
- We deliver comprehensive loss prevention and security products and services.
- We operate a nationally-renowned technical support task force to service your needs nationwide.
- We provide a US-based, 24-hour technical support team along with a comprehensive service management model.
- Our certified technicians are onsite within four hours of the initial call—7-days a week, 365 days a year.

Our customer service is fanatical, and we deliver next-generation security expertise and professionalism on-demand.

The Amphion National Service Program
