

Protect Your Cash

When cash is missing from any business location, revenue is negatively impacted. But why does it go missing?

Amphion's Safe and Cash Handling Products Include:

- Smart Safes & Standard Safes
- Under Counter Drop Boxes
- Counterfeit Detection Equipment
- Brands including Amphion, TiDel, AMSEC, FireKing/CSS, The Authenticator
- Services include supply, installation, service and support

It's typically one or all of three reasons:

1. Poorly defined procedures surrounding cash access, proper cash routing, and comprehensive processes to prevent small shortages – all adding up to significant amounts of loss.
2. Improper bookkeeping and accounting processes to uncover errors, preventing the ability to trace and immediately rectify any issues leading to cash shortages.
3. Failure of technology, including outdated safes, or lack of cash authentication equipment.

It is for these three reasons that Amphion is a leader in restaurant and retail shrink. We can help you define the right strategic processes to defeat challenges 1 and 2, while offering sophisticated safe and cash handling equipment to ensure point 3 is a non-issue.

A Sample of Cash Handling Best Practices:

- Never use improvised funds to make up for a shortage in the cash drawer, no matter how small.
- Standardize cash handling processes around industry-recognized best practices.
- Cash handling processes and procedure should occur on a regular, consistent schedule.
- Limit the amount of cash kept on hand.
- Control the number of employees with access to cash.
- Always be open to revising and upgrading a process if any cash handling issues are identified.

We Are Amphion

A security Integrator with a Radical Approach to Service

What this means to you:

- We understand the causes — and the solutions — of restaurant and retail shrink.
- We deliver comprehensive loss prevention and security products and services.
- We operate a nationally-renowned technical support task force to service your needs nationwide.
- We provide a US-based, 24-hour technical support team along with a comprehensive service management model.
- Our certified technicians are onsite within four hours of the initial call — 7-days a week, 365 days a year.

Our customer service is fanatical, and we deliver next-generation security expertise and professionalism on-demand.

The Amphion National Service Program

- We deploy only Amphion-certified technicians, strategically located throughout the country.
- Our customers rely on a single resource for all their installation and service-related needs.
- Amphion is widely recognized as a leading provider of physical security equipment and service for the loss prevention and asset protection industry.

How We Support our Safes and Cash Handling Technologies:

- Rapid Response Security Services
- Technical Support Task Force
- Unlimited Telephone Access
